

## Brainstorming & Idea Prioritization Template

|                      |               |
|----------------------|---------------|
| <b>Date</b>          | 15 March 2024 |
| <b>Team ID</b>       | XXXXXX        |
| <b>Project Name</b>  | XXXXXX        |
| <b>Maximum Marks</b> | 3 Marks       |

### Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

| S.No | Team Member            | Idea / Suggestion                                                   | Category              | Group No. |
|------|------------------------|---------------------------------------------------------------------|-----------------------|-----------|
| 1    | Kummithi Keerthi Reddy | Develop a Machine Learning model to predict credit card approval    | AI & Machine Learning | 1         |
| 2    | Perapogu Mani Kumari   | Perform data preprocessing and feature engineering                  | Data Preprocessing    | 1         |
| 3    | Aswini Chitreddy       | Design a responsive Flask web interface                             | Web Development       | 1         |
| 4    | Aswini Chitreddy       | Create attractive HTML, CSS, and Bootstrap frontend                 | UI/UX Design          | 2         |
| 5    | Syed Sahil Ahmed       | Deploy the application on Render and manage GitHub repository       | Cloud Deployment      | 2         |
| 6    | Team Discussion        | Improve model accuracy using Random Forest and evaluate performance | Model Evaluation      | 1         |

### Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

| Group No. | Final Idea                                   | Feasibility (High/Medium/Low) | Importance (High/Medium/Low) | Priority | Selected (Yes/No) |
|-----------|----------------------------------------------|-------------------------------|------------------------------|----------|-------------------|
| 1         | Credit Card Approval Prediction System using | High                          | High                         | 1        | Yes               |

### Brainstorming & Idea Prioritization Template

|   |                                                     |        |        |   |     |
|---|-----------------------------------------------------|--------|--------|---|-----|
|   | Machine Learning                                    |        |        |   |     |
| 2 | Flask Web Application with Render Deployment        | High   | High   | 2 | Yes |
| 3 | Data Visualization Dashboard for Applicant Analysis | Medium | Medium | 3 | No  |
